# WALL PACK (MWP15)

### DESCRIPTION

The brand-new WP15 series of LED Wall Pack, available only in one size and the power from 26W to 135W, can replace up to 400W MH. Uniform light distribution and excellent LED lumen maintenance rate, high energy efficiency, low cost, while taking into account the stylish design, ensure that the fixture has a long service life. WP15 also has on-site dimmable output and CCT settings, allowing the contractor to set the lumen value and CCT of the fixture at the installation site to a level that is perfectly suitable for the work site. Emergency egress battery and light control are optional, which is an ideal choice to meet any daily wall-mounted lighting applications.

### SPECIFICATION FEATURES

#### Construction

- Two-piece die-cast aluminum housing secures the thermally conductive LED panel and electrical chamber.
- · Casting thermally conducts LED heat to optimize performance and long life.
- The design with zero uplight meets the requirements of dark sky.

#### Optics

- The 135W is available in standard 3000K 4000K and 5000K configurations and the other powers are supports adjustable color temperature (3000K&4000K&5000K).
- Scalable Lumen Packages from 3,800 to 20,000 Lumens
- · Anti-UV prismatic translucent len is designed to shape the light distribution and uniformity.

#### Electrical

- Universal 120-277 or 347-380 VAC input voltage.
- Optional 0-10V dimming and dimming range from 10%-100%.
- Both drivers have a power factor >90%, THD <20%. • Operating Temperature Range: -40°C to 40°C (-40°F - + 104°F).
- Note: Operating with emergency battery temperature range: 10°C to 40°C (+50°F + 104°F)

#### Controls

- Optional Photocell
- Optional Emergency Battery

#### Lifespan

• Estimated 50,000-hour LED lifespan based on IES LM-80 results and TM-21 calculations.

#### Warranty

· Five-year limited warranty.

#### Certifications

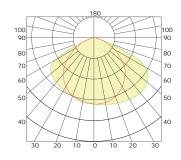

- UL cUL wet location listed.
- DesignLights Consortium™ Qualified.
- Note: DesignLights Consortium™ Qualified and classified for DLC Premium (all lumen packages), refer to www.designlights.org for details.

#### Note

· Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at  $25 \text{ C}(\pm 5 \text{ C})$  specifications subject to change without notice.

#### ACCESSORIES(Option)

#### Photocell Description: Photocell is field installed or pre-installed in factory by requesting

**Emergency Battery Backup** Description : It can be pre-installed in factory or field installed. Only suitable for 26W,38W,65W.

#### Power and CCT controller

Description: Power adjustment range: 100%-80%-60%-40%, CCT adjustment range: 3000K, 4000K, 5000K. Only suitable for 26W,38W,65W,100W.

# CCT AND WATTAGE CONTROLLER

This fixture has the function of adjusting the lumens output and color temperature on-site.

Wattage selectable: 100%, 80%, 60%, 40% CCT selectable: 3000K, 4000K, 5000K
